second.author@email.com
third.author@email.com
fourth.author@email.com
fifth.author@email.com

Abstract

The abstract should briefly describe the motivation, objective, methodology, main findings, and conclusions of the paper. It should be written as a single concise paragraph and should allow the reader to understand the scope and contribution of the work without reading the full paper.

Please note that the abstract must not exceed one page.

Keywords: fire safety; structural engineering; numerical modelling; evacuation; risk assessment
Provide up to 5 keywords.
